

BIMONTHLY SCHOOL NEWSLETTER (2014/2015)

Volume: 1, Issue: 1 (May, June)

DIRECTOR'S MESSAGE

Greetings to every Child, Parents and Teacher.

It barely seems that we've been three months into this lovely session; the Spring season is about over, yet the incessant bucketing of cooling rains are eagerly awaited for.

This, therefore, ushers in the swimming excitement of the soothing splurges into the cool blue pools that the children anticipate with bated breath. Running parallel is the delight of the current Football World Cup fiesta!

All the children, along with their Teachers come in their favourite team jerseys and the premises is spangled with myriad colours. Adding to the fun-filled atmosphere is their participation in the Futsal matches they engage themselves in enthusiastically, on rotational basis. It's in the air and all take part in gay abandon.

Notwithstanding their fun-filled moments, they are also busy in their studies as physical and mental engagements go side by side for a sound all-round growth of mind and body. This balance is maintained by the effective teaching-learning

Issue Date

method followed by all subject teachers with the right input and infusion of the Music, ECA and various Club activities.

Each lesson begins with the main focus on the few activities (about 1-4 of them) performed right at the beginning of each new lesson. This opens the flood gates to their full capacity of understanding and learning.

Smart Classes with digital education content will be conducted with a Visual and Interactive concept in a practical manner. Children can watch their lessons on the board and can relate to it in a 'two-way' process.

In keeping with the concept and academic structure of the Global Classroom Pvt. Ltd (GCPL) here at Euro School, we promote, conform to and forge our goal of 'Competing With Yourself.' The philosophy deals with the inherent quality and ability of each child who is inspired and motivated to achieve better results and not be fully content till the individual performance level rises at each attempt. They learn not to fear challenges but face them head-on.-Thus, moulding them to be confident and worthy denizens of their motherland, as well as, capable world citizens; successfully carving a niche of their own, despite the complex ups and downs of life.

The First Assessment had already been held earlier and now the time for the Second Assessment is approaching. The first had been an eye-opener and an indication of a personal level of achievement. Each parent is handed the comprehensive and detailed report card of their child/ward for personal scrutiny, appraisal and comment. The PTMs ensures the joint effort of the parents too.

For the up-coming Summer Vacation period too, senior students have been given some projects and study programme beneficial and in connection to the Assessment/Test that shall follow.

I would like to thank the parents for their support and unfailing trust in the Euro School fraternity and also the perpetual endeavor of the teachers and staff, whose dedication has made it possible to help attain the continuing goal. Their commitment to students and their learning is unparalleled. Every day, I am awestruck by the rigor and creativity of their passion for teaching, and inspired by the love and support they provide for each of their students. At Euro School, the teachers and staff strive daily to help each child grow uniquely - nurturing them with compassion, care and insight and celebrating each small learning step. The joy they experience is simply inexplicable!

**Best regards,
Shailaja Adhikary
Managing Director/Principal**

GCPL TRAINING

The GCPL Training here at Euro School, Handigaun was held from 16th – 18th April, 2014. The GCPL Nurture International is a school-based programme that provides World Class Curriculum complete with on-going diagnosis, teachers' training and support to implement a 21st century education.

Our Trainers had come from Delhi and the workshop was conducted by Mrs. Archana, the KD Principal from the CBSE Board and Mrs. Priya Kakar.

The Teachers were engrossed with fun-filled activities and also had to do on-the-spot presentation on a lesson /topic selected at random. There was great interaction involved. The same is mandatory and applies to the child-teacher relationship in every activity done in class. This sets the organizational system and the pace of progress indelibly in our minds, which in turn is practically applicable in class with the children.

Every child is nurtured to the fullest extent of his/her aptitude and propensity while the teachers 'walk-the-talk' at every step with the child inspiring and guiding him/her with a gentle push to help perform better.

The Morning Assembly

There is a reason to reconnect with our entire "School family" at the beginning of each day - with a "Morning Assembly." A well-organized assembly establishes a positive tone for teachers and students and encourages community involvement.

The daily assembly features an allegiance to the School Prayer, the National Anthem and the School Song. Added to this solemn practice is the moving Earth Anthem by Abhay Kumar which all on the ground sing – a constant reminder of the straits of dire that the planet earth is walking through, even at this very moment!! This is followed by the celebration of birthdays, morning announcements, and orderly dismissal.

From Sunday to Friday, the children conduct the assembly with a weekly Theme provided on the basis of environmental, national and moral priority.

Day	Activity
Sunday	News Reading
Monday	Quiz
Tuesday	Amazing Facts
Wednesday	Role Play
Thursday	Speak on Any Topic
Friday	Aerobic Dance/Soul Stirring Music

Mr. Maxwell Masy, School Head conducts and coordinates the assembly with Mrs. Lokeshwori Hada, Vice-Principal and Mrs. Angela Gurung, the Senior Coordinator and make other announcements, schedule talents and timings and organize three/four students to lead the assembly each day.

School assemblies, in all phases of schooling, can make a positive contribution to pupil self-development and therefore be at the heart of raising achievement and standards.

World Environment Day Celebration

The slogan this year for the World Environment Day – 5th June, 2014 was – 'Raise your voice, not the sea level' and it was rightly said so. The connotation of this wise saying is that we should raise our voices against the gross violation of our precious environment and mother earth, as a whole. We should conserve the trees or greens and also the water of our planet. These are the most essential elements required for sustaining life across the globe.

The Teachers, children and even the staff observed the Green Day and honoured it by adhering to the green dress-code worn by everybody in the premises. Students of all the classes prepared beautiful and colourful charts on the theme, which were then put up on the soft boards for display. The teachers were exemplary by extending their hands.

Std. I and II carried playcards and posters about the green day and went out till Ghana Pokhari as a sign of commitment to help keep our surroundings green.

Std. III and IV had an excited session of competing with each other on paper and declaring their expertise in art with brilliant display of colours. The winners are:

1st – Lilyanna Gurung – Std. IV Venus

2nd – Lakshya Aruki – Std. III Annapurna

3rd – Paridhi Agrawal – Std. III Everest

Lilyanna Gurung

Lakshya Aruki

Paridhi Agrawal

Std. V planted flower saplings in the school garden with a small sum which even they contributed. Std. V-Taurus took the initiative and performed a small skit on the importance of observing the Environment Day and continuing to do so ever in their future lives.

Std. VI and VII were taken on a cleaning campaign here, to the nearby temple and market place at Handigaun. They planted tree saplings in the temple garden. The mercury was soaring but, nonetheless, all were completely engrossed in this activity which made them feel relaxed and calm in spite of the perspiration running down in rivulets.

INVESTITURE CEREMONY

The Investiture Ceremony in Euro School was held on 6th June, 2014. The Principal, the School Head and the Vice-Principal had conferred the beaming new leaders with sashes and badges.

All the children and their young and dynamic 'cream of the crop' looked spick and span in their house dresses. There was a riot of vibrant colours splashed around. The leaders were administered the oath/pledge of honesty, perseverance and service.

The Names of the various chosen leaders, their Designations and Houses are given as hereunder: -

Mingma Lhamu Lama	Captain (Juniors)	Apollo House
Ayushi Malla	Captain (Juniors)	Poseidon House
Fiza Raees	Captain (Juniors)	Zeus House

Clubs in School

In the changing world of today, education is not limited merely to the learning of books. Educating a child means making him/her conversant with knowledge and creativity. So the first step of education is to facilitate an atmosphere in which children are interested in exploring their talents and are self motivated in creating an impressive personality. They should be guided by their self motivation and strong will-power. Keeping this in mind, we have kept many activities in our club such as *dance, karate, music, basketball, public speaking, Art and Craft, fashion designing, extempore and elocution.*

Swimming

This being one of the prime needs of the hour and an equally needed aspect of entertainment for the sound physical development of a child, we have programmed it regularly for about three months.

HCL Training

To make the classes more interactive, we are stepping ahead with Hindustan Classroom Limited (HCL) for digital education content. On 28th of May, 2014, Wednesday, HCL Training was given to the teachers by Mr. Swapnil, all the way from Dehradun, India. This will help to enhancing the understanding level of the students and also the teachers.

IT Training

It is a matter of pride that, from this year onwards, teachers are able to send the *e-class newsletter* and *e-school newsletter* to the parents. It will help the parents to be informed about their children's activities that are going on in the classroom and in the school. To make this possible, IT Training was given to the teachers by Ms. Rachana Bajracharya, IT Coordinator of school.

Here are the Email IDs of the teachers:

NAME OF TEACHER'S	Email ID	CLASS NAME	CLASS
PALLAVI PRADHAN	std.1marigold@euroschoo.edu.np	MARIGOLD	1
